

## Basic Saw Tip Ordering Information

### Required Information

Length \_\_\_\_\_  
 Width \_\_\_\_\_  
 Thickness \_\_\_\_\_  
 Grade \_\_\_\_\_  
 Bevel /Flat \_\_\_\_\_  
 PT or UNTIN \_\_\_\_\_

### Letter Designations

- Example WFC 7150  
 W is the chemical symbol for tungsten.  
 The next letter A,B,C, F etc. designates length and thickness. F mean 1/2" long, 1/8" thick.  
 C as a third letter means European. No third letter means it is American.  
 7 as the first number means straight sides, 8 as the first number means slanted sides.  
 The next three numbers indicate width (kerf) in thousandths of an inch  
 Exceptions:  
 WG can be a 1/2 or a 3/8 long tip depending on the manufacturer.  
 An "E" is sometimes used to designate European. can be WFE or WFC. Confirm size and do not depend on letter designations alone.

### Common length and thickness combinations

Long L	Thick T	May be		
1/4"	(.250)	.062	WA	Always double check before ordering by letter size
9/32	(.281)	.078	WB	
9/32	(.281)	.093	WC	
5/16	(.312)	.093	WD	
3/8	(.375)	.093	WE	
1/2	(.500)	.125	WF	
3/8	(.375)	.125	WG or WS	
11/32	(.344)	.125	WH	
3/8	(.375)	.156	WQ
